

## Chapter 7

### The Audacity

### *The Audacity, Ferocity and Persistence Of State Terrorism*

#### THE FIRST TO FALL

#### WHO IS NEXT ?

Italy's new and highly successful government, launched in 1922, was the first victim to fall to the Internationalists of the world in 1943. A world war was needed to accomplish this program of "REGIME CHANGE" in Italy and as a result a worldwide war was launched and succeeded in murdering fifty-five million innocent soldiers and citizens. This programmed war has today become a how-to lesson for future political regime changes as they are seen to be necessary by the victorious order of Allied Nations.

The ever increasing tempo of "State Sponsored Terrorism" is a modern day problem of immense proportions that has its effects in every corner of our planet. Recent years have become a labyrinth of fire and brimstone suffering for those nations unlucky enough to stand firm in the path of the military fireworks of predatory nations intent on the fulfillment of their programs of domination that introduces new foreign born universal arrangements of political, social, and economic agendas for certain nations of the world.

In 1919 in a speech in Milan, Benito Mussolini said in part, " I fear going to extremes, the policy of madness, at the bottom of which may lie the destruction of our fragile mechanical civilization, robbed of its moral basis, and the coming of a terrible race of dominators who would reintroduce discipline in the world and re-establish the necessary hierarchies with the cracking of whips and machine guns."

This brilliant, inspired and most prophetic observation of a young 36 year old Italian has now taken root, form, and substance. The Harpies are now at the door.

The author's essay that follows is largely based on his own observations and conclusions as to the events and occurrences which have left their mark on the world he has lived in for the past fifty plus years, but in total these worldwide themes and their histories are universal and vitally important to all humanity.
